

Maya Rabin

Thesis Final Read Me File

Details all of the files in my thesis folder and how to understand them.

Rabin, Maya Thesis May 2026.pdf

Description: Full finalized thesis

Maya Rabin Prospectus.pdf

Description: Final prospectus on the thesis

Final Data Exports Folder

Census_1990_joined.parquet

Description: from 1990 the closest period of the census to my start date includes all of the census data from IPUMS with the necessary geographic identifiers to be joined to the rest of my data.

Places_panel_agg.csv

Description: from 1950 to 2020 combined data on all municipalities including name, year, districts, split status, president, governor, reock score, cook PVI, political alignment, and geographic identifiers.

places_panel_final_demographics.parquet

Description: final dataset used for the analysis including both the financial side from the Census of Governments, the political data from cook pvi, the demographic data from IPUMS originally from census and the geographic data.

raw_financial_1992.csv

Description: combined financial data for 1992 using the 92CensusIndUnit.txt and the 92CensusIndUnitDirectory.txt to create the cog1992_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 1992.

Raw_financial_1997.csv

Description: combined financial data for 1997 using the 97ItemCodes0500.txt and the 97CensusIndUnitDirectory.txt to create the cog1997_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 1997.

Raw_financial_2002.csv

Description: combined financial data for 2002 using the 2002FinInddiv24_NoImps.txt and the 02fingid.txt to create the cog2002_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 2002.

raw_financial_2012.csv

Description: combined financial data for 2012 using the 2012FinEstDAT_10162019modp_pu.txt and the Fin_GID_2012.txt to create the cog2012_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 2012.

raw_financial_2017.csv

Description: combined financial data for 2017 using the 2017FinEstDAT_09202024modp_pu.txt and the Fin_PID_2017.txt to create the cog2017_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 2017.

Raw_financial_2022.csv

Description: combined financial data for 2022 using the 2022FinEstDAT_06052025modp_pu.txt and the Fin_PID_2022.txt to create the cog2022_muni_real_percap.csv. Includes per capita real tax and federal transfer numbers collapsed by municipality for the year 2022.

Originally Downloaded Thesis Data (Folder)

Census District Shapefiles 1950-2025 (Folder)

districts084_1955

Description: Congressional district shapefiles for the 84th Congress (circa 1955). Provides geographic boundaries of U.S. congressional districts used to construct historical district overlays.

Contents: Standard ESRI shapefile components (e.g., .shp, .shx, .dbf, .prj). Attribute table includes district identifiers and state information used for spatial joins.

districts089_1965

Description: Congressional district shapefiles for the 89th Congress (circa 1965). Used to represent district boundaries for the 1960s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts094_1975

Description: Congressional district shapefiles for the 94th Congress (circa 1975). Used to represent district boundaries for the 1970s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts099_1985

Description: Congressional district shapefiles for the 99th Congress (circa 1985). Used to represent district boundaries for the 1980s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts104_1995

Description: Congressional district shapefiles for the 104th Congress (circa 1995). Used to represent district boundaries for the 1990s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts109_2005

Description: Congressional district shapefiles for the 109th Congress (circa 2005). Used to represent district boundaries for the 2000s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts114_2015

Description: Congressional district shapefiles for the 114th Congress (circa 2015). Used to represent district boundaries for the 2010s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

districts119_2025

Description: Congressional district shapefiles for the 119th Congress (circa 2025). Used to represent district boundaries for the 2020s decade in spatial matching.

Contents: Standard ESRI shapefile components with district and state identifiers.

Municipality Economic Data (Folder)

Places_GIS_State_Data (Folder)

Description: This folder contains municipal boundary GIS data organized by Census region and state. Data sources vary by state. Where available, state-provided GIS boundary files are used because they often better match Census of Governments (COG) units. For states without a separate state GIS source, Census TIGER/Line place shapefiles are used.

New England (folder)

Maine

Description: Municipal and township boundary data for Maine. Source: State of Maine, Maine Town and Townships Boundary Polygons Feature shapefile.

New Hampshire

Description: Town-level political boundary data for New Hampshire. Source: NH GRANIT New Hampshire Political Boundaries shapefile.

Vermont

Description: Town boundary data for Vermont. Source: VT Center for Geographic Information Town Boundaries shapefile.

Massachusetts

Description: City and town boundary data for Massachusetts. Source: MassGIS Municipalities shapefile.

Rhode Island

Description: Municipal boundary data for Rhode Island, including city and town boundaries. Source: RIGIS / URI Environmental Data Center Municipalities shapefile.

Connecticut

Description: Town boundary data for Connecticut. Source: CT DEEP GIS Open Data Town Boundaries shapefile.

Mid-Atlantic (folder)

New York

Description: Municipal boundary data for New York, including counties, cities, towns, and villages. Source: NYS GIS Program Office Civil Boundaries shapefile.

New Jersey

Description: Municipal boundary data for New Jersey. Source: NJ Office of GIS Municipal Boundaries shapefile.

Pennsylvania

Description: Municipality boundary data for Pennsylvania. Source: PennDOT GIS PennShare Municipality Boundary shapefile.

Delaware

Description: Hundreds boundary data for Delaware. Source: State of Delaware FirstMap Delaware Hundreds shapefile.

Maryland

Description: Municipal boundary data for Maryland. Source: MD iMAP Municipal Boundaries Detailed shapefile.

South Atlantic (folder)

Virginia

Description: Administrative and municipal boundary data for Virginia. Source: Virginia Geographic Information Network Administrative Boundaries shapefile.

West Virginia

Description: Incorporated place boundary data for West Virginia. Source: West Virginia GIS Clearinghouse Incorporated Places Census shapefile.

North Carolina

Description: Place boundary data for North Carolina. Source: Census TIGER/Line place shapefile.

South Carolina

Description: Municipal boundary data for South Carolina. Source: SCDOT GIS Municipal Boundaries shapefile.

Georgia

Description: Place boundary data for Georgia. Source: Census TIGER/Line place shapefile.

Florida

Description: Municipal boundary data for Florida. Source: Florida Department of Transportation GIS / FGDL Municipal Boundaries shapefile.

East South Central (folder)

Kentucky

Description: Place boundary data for Kentucky. Source: Census TIGER/Line place shapefile.

Tennessee

Description: City boundary data for Tennessee. Source: TNMap City Boundaries shapefile.

Alabama

Description: Incorporated city boundary data for Alabama. Source: ALGeoHub Alabama Incorporated Cities Boundaries shapefile.

Mississippi

Description: Place boundary data for Mississippi. Source: Census TIGER/Line place shapefile.

East North Central (folder)

Ohio

Description: Municipal boundary data for Ohio. Source: Ohio GIS Resources & Innovation Program Municipal Boundaries shapefile.

Indiana

Description: Administrative and municipal boundary data for Indiana. Source: IndianaMap GIO Administrative Boundaries of Indiana Current shapefile.

Illinois

Description: Place boundary data for Illinois. Source: Census TIGER/Line place shapefile.

Michigan

Description: City and township boundary data for Michigan. Source: Michigan GIS Open Data Minor Civil Division shapefile.

Wisconsin

Description: City, town, and village boundary data for Wisconsin. Source: Wisconsin State Legislature Cities, Towns, and Villages shapefile.

West North Central (folder)

Minnesota

Description: City, township, and unorganized territory boundary data for Minnesota. Source: Minnesota Transportation Department CTU boundary shapefile.

Iowa

Description: Place boundary data for Iowa. Source: Census TIGER/Line place shapefile.

Missouri

Description: Place boundary data for Missouri. Source: Census TIGER/Line place shapefile.

North Dakota

Description: City boundary data for North Dakota. Source: ND GIS Hub City Boundaries shapefile.

South Dakota

Description: Place boundary data for South Dakota. Source: Census TIGER/Line place shapefile.

Nebraska

Description: Municipal boundary data for Nebraska, including cities, towns, and villages. Source: State of Nebraska Municipal Boundaries shapefile.

Kansas

Description: Municipal boundary data for Kansas. Source: Kansas GIS Municipal Boundaries shapefile.

West South Central (folder)

Arkansas

Description: Municipal boundary data for Arkansas. Source: Arkansas GIS Office Municipal Boundaries polygon shapefile.

Louisiana

Description: Municipal boundary data for Louisiana. Source: Louisiana Department of Transportation and Development Municipal Boundaries shapefile.

Oklahoma

Description: Municipal boundary data for Oklahoma. Source: University of Oklahoma Center for Spatial Analysis Municipal Boundaries shapefile.

Texas

Description: Municipal boundary data for Texas. Source: TxDOT GIS Municipal Boundaries shapefile.

Mountain (folder)

Montana

Description: Incorporated city and town boundary data for Montana. Source: Montana State Library Incorporated Cities and Towns shapefile.

Idaho

Description: Place boundary data for Idaho. Source: Census TIGER/Line place shapefile.

Wyoming

Description: Place boundary data for Wyoming. Source: Census TIGER/Line place shapefile.

Colorado

Description: Municipal boundary data for Colorado. Source: Colorado Geospatial Portal Municipal Boundaries shapefile.

New Mexico

Description: Place boundary data for New Mexico. Source: Census TIGER/Line place shapefile.

Arizona

Description: Incorporated city and town boundary data for Arizona. Source: AZGeo Arizona Incorporated Places Boundaries shapefile.

Utah

Description: Municipal boundary data for Utah. Source: Utah UGRC / AGRC Municipal Boundaries shapefile.

Nevada

Description: Place boundary data for Nevada. Source: Census TIGER/Line place shapefile.

Pacific (folder)

Washington

Description: Municipal boundary data for Washington. Source: Washington State GIS Municipal Boundaries shapefile.

Oregon

Description: City limit boundary data for Oregon. Source: State of Oregon GEOHub City Limits shapefile.

California

Description: City boundary and identifier data for California. Source: California Open Data City Boundaries and Identifiers shapefile.

Note: All boundary data are stored as shapefiles unless otherwise indicated. Supporting shapefile components are kept with each dataset to ensure they can be loaded properly in Python/GIS software.

Political Data (Folder)

Cook_Index_Congressional_Districts - 1997.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 1997. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 1999.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 1999. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2001.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2001. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2003.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2003. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2005.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2005. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2007.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2007. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2009.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2009. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2011.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2011. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2013.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2013. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2015.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2015. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2017.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2017. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2019.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2019. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2021.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2021. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2023.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2023. Provides a measure of district-level partisan lean relative to the national average.

Cook_Index_Congressional_Districts - 2025.csv

Description: Cook Political Report Partisan Voting Index (PVI) data by congressional district for 2025. Provides a measure of district-level partisan lean relative to the national average.

Presidents.csv

Description: Dataset of U.S. presidents by year, including party affiliation, used to code national-level political control over time.

Us_governors_1775_2025.csv

Description: Dataset of U.S. state governors from 1775 to 2025, including party affiliation, used to code state-level political control by state-year.

BEA Data.csv

Description: Bureau of Economic Analysis annual inflation data for full time period 1987 to 2022. The top line of the table, federal government consumption, expenditures, and gross investment, was used to create an inflator/deflator to get the real numbers.
